II. Project Description

A. Brief Summary of the Project (maximum of 2 paragraphs, not exceeding 3 sentences per paragraph).

A description of what the project intends to do based on the problem/s it wants to address and its immediate impacts over a period of 12 months or less.

B. Problem Statement (maximum of 2 paragraphs or 1 paragraph per problem it wants to address, substantiating the problem/s or opportunity/ies)

For example, the project wants to rehabilitate a 1-kilometer Access Road destroyed by flooding. To substantiate, state the number of families affected, their source of income, level of income, hectares planted to agricultural crops, etc., that would warrant the approval of the project.
C. Project Goal and Objectives

Since the PCF projects are implementable only over a period of 12 months or less:
- Only 1 goal should be stated; and,
- Limit the statement of objectives to 2 or 3. These objectives should be SMART (specific, measurable, attainable, realistic, and time bound).

D. Project Components / Expected Output/s / Timetable

- It is recommended that 1 objective correspond to 1 component. For example:
