

Will promote Economic prosperity in the regions and provide incentives for Filipinos to Live and Work outside Metro Manila. Investors may also decide to put up their businesses by setting up the right policies.

Equalization Fund will provide more funding support for regions in need to accelerate their development and progress.

Feasible Solution To The Mindanao Issues- The creation of the Bangsamoro Regional Government within Federalist System will address concerns of our Muslim Brothers and Sisters who crave more autonomy over the Government and Administration of Muslim Mindanao.

Decentralization and Devolution of Powers-More Power are Decentralized and Devolved to Local Government.

With a strong Political System Dynasties will become irrelevant Political Leaders will become more accountable. No more excuse or delays in services or projects, constituents are not forced to ask assistance from the rich in exchange for services and allegiance.

Local government can only collect real estate taxes and business permit fees. In Federalism they can retain most of their revenue income collection and use them on programs and policies according to their needs and create enough opportunities for upward socio-economic mobility.

Political dynasties will no longer have the ability to pass the buck to the national government and blame it for why their region is poor.

Regions will remain poor if its leaders are lousy and unable to set up pro-business economic policies that will create enough economic opportunities for the people.

No more mega-pork barrel like the PDAF.

WE WILL ADVOCATE FOR A UNICAMERAL LEGISLATURE INSTEAD OF A BICAMERAL ONE.

AN AGENDA FOR EMPOWERED GOVERNANCE; INCLUSIVE GROWTH AND COUNTRYSIDE DEVELOPMENT

In the long term, the ultimate solution to the chronic problems haunting our country is Federalism. The Federal system of government is the key to achieving national peace and economic prosperity in a diverse society such as ours with 18 regions, 81 provinces, 144 cities, 1490 municipalities and 42,026 barangays.

Of all the most important systemic and fundamental constitutional reforms that must be implemented in order to improve the Philippines, Federalism is the reform that has the most solid support among most ordinary Filipinos. Particularly in the Visayas-Mindanao and even in the Solid North, Bicol, and Muslim Mindanao regions, Federalism is widely appreciated and understood even by ordinary citizen to be of utmost urgency in order to fix the Philippines.
