

PAYAPA AT MASAGANANG PAMAYANAN (PAMANA-DILG FUND)

1.0 BACKGROUND

In order to strengthen peace-building, reconstruction and development in Conflict Affected Areas (CAAs), the Government is adopting a two-pronged approach: Track 1 - (i) negotiated political settlement of all armed conflict through peace negotiations and Track (ii) undertaking programs aimed at addressing the root causes of armed conflict through interventions on the ground.

PAMANA as a whole builds positive healing relationship within conflict-affected communities thru the application of peace and social cohesion standards (PSC). Socio-economic interventions are identified and selected by local governments thru the PSC conditions of participation, inclusion, transparency and conflict-sensitivity.

PAMANA is being implemented by 11 national government agencies, namely DILG, DSWD, DAR, DA, NEA, DOE, DENR, ARMM, NCIP, PhilHealth, and CHED, in partnership with local government units (LGUs).

2.0 PROGRAM OBJECTIVES

The PAMANA Program aims to contribute to just and lasting peace by achieving the following objectives:

1. Improve socio-economic conditions in areas affected by and vulnerable to armed conflict;
2. Strengthen institutional capacities of national government agencies and local government units to pursue peace and development plans and programs in areas affected by and vulnerable to armed conflict; and,
3. Enhance capacities of communities to address conflict issues and engage in peace building.

3.0 PAMANA-DILG FUND DESCRIPTION

The DILG component addresses sub-regional development interventions covering economic structures, local roads, evacuation centers, water supply systems and community infrastructure subprojects. It builds capacities of DILG field offices and LGUs on conflict-sensitive planning and investment programming. It also implements or formulates policies addressing issues on good governance relative to conflict-affected areas. DILG provide advisory assistance and technical assistance to Regional Offices in project appraisal, DED review, and assistance to LGUs in procurement, operation and maintenance.
